## I. INTRODUCTION

This guide will assist financial aid administrators (FAAs) in interpreting student information from an Institutional Student Information Record (ISIR), which is an electronic record that is sent to the institution. The term ISIR refers to all processed student information records that are sent electronically directly to institutions by the Central Processing System (CPS).

A Student Aid Report (SAR) is the paper output document that is sent to the student. SARs and ISIRs contain the same processed student information in different formats. The SAR is explained in detail in Appendix D of this guide.

ISIRs are records sent to an institution through the Electronic Data Exchange (EDE), the Department's electronic service that allows institutions to send and receive electronic data to and from the CPS and other Federal Student Aid (FSA) systems. Drafts of the 2003–2004 ISIR record layout for institutions and state agencies have been provided at conferences beginning in July 2002. The layouts can be downloaded in portable document format (PDF) from the Information for Financial Aid Professionals (IFAP) Web site at **ifap.ed.gov**. The *2003-2004 EDE Technical Reference* contains all the layouts in section 3.

This *ISIR Guide* explains codes and flags that appear as FAA information on the ISIR.

Changes to the design and data elements on the 2003–2004 Free Application for Federal Student Aid (FAFSA) required corresponding changes to the ISIR, however, we made very few changes to the 2003–2004 application processing system. Information about these system changes and enhancements will be posted to the **ifap.ed.gov** Web site in a future Action Letter posting.

*New ISIR fields for 2003-2004 are:*

- Parent's Marital Status Date
- Reject Override A
- Reject Override C
- FAFSA Data Verify Flags
- Direct Loan Plus Master Prom Note Flag

***Deleted ISIR fields for 2003-2004 are:***

- NSLDS Pell Remaining Amount to Pay (1 through 3)

***Modified Rejects:***

- Reject A is now a verifiable reject on the FAFSA and Correction Records. The end year range increased from 1927 to 1928.
- Reject B end year range increased from 1986 to 1987.
- Reject C is now a verifiable reject on the FAFSA and Correction Records. The condition for meeting the reject has been changed to taxes paid are not equal to or greater than AGI and are greater than or equal to 40% of the AGI.

***New Rejects:***

- Reject D is set for a dependent student whose Father's/Stepfather's SSN is in an invalid range.
- Reject E is set for a dependent student whose Mother's/Stepmother's SSN is in an invalid range.
- Reject R is set when the applicant's name and SSN matches the SSA database but the date of birth does not match.
- Reject 9 is set for a dependent student when both the Father's/Stepfather's and the Mother's/Stepmother's SSN fields are blank.
- Reject 12 is set when the taxes paid are greater than or equal to the AGI.

## **Processing Flow**

The flow of information through the system remains basically the same in 2003–2004 as in 2002–2003.

The student starts the process by filling out a FAFSA, and this information is “processed” through the CPS and returned to the student and institution. The application information can be submitted on paper, electronically at the school through the Student Aid Internet Gateway (SAIG) or via FAA Access to CPS Online, or using FAFSA on the Web, Spanish FAFSA on the Web, or Renewal FAFSA on the Web.

The charts on pages 8 and 9 show how information about a financial aid applicant flows through the system for the various types of applications and corrections. The major participants and documents or records in the application process are:

- 1) The U.S. Department of Education (ED).
- 2) The student. He or she may apply for federal student aid under the Title IV programs—Federal Pell Grant, Federal SEOG, Federal Work-Study, Federal Perkins Loans, the Federal Family Education Loan Program, and the William D. Ford Federal Direct Loan Program.
- 3) The financial aid application. There are different applications available that the student can complete and submit in order to apply for federal student aid. These include the paper FAFSA, paper Spanish FAFSA, the electronic FAFSA through EDExpress, FAFSA on the Web, Spanish FAFSA on the Web, or Renewal FAFSA on the Web.
- 4) The FAFSA Processor. One organization will serve as the data entry processor for the 2003–2004 processing year under contract with ED. The FAFSA processor receives applications in the mail, performs document analysis to check that data are acceptable, and handles missing or unacceptable responses. The processor images the application, enters the information from the application, and transmits it electronically to the CPS.
- 5) The Central Processing System (CPS). The CPS operates under a contract with ED to receive and process application information. The CPS matches student records with other databases to check eligibility. The CPS also applies a series of “compute edits” to the application information to check for inconsistencies, contradictions, and missing information. During the compute process, the CPS uses the need-analysis formula specified in the law to calculate each applicant’s Expected Family Contribution (EFC).

- 6) The Institutional Student Information Record (ISIR). ISIRs are electronic records that are produced by the CPS and provide schools with processed application information. ISIRs are transmitted electronically to destination points (schools, servicers, and state agencies) daily through EDE.
- 7) The Student Aid Report (SAR) and the SAR Information Acknowledgement. These paper documents provide the student with processed application information. The CPS prints these forms and mails them directly to the address the student provided. Alternatively, some students may get an electronic SAR e-mail.
- 8) The School. The school refers to each postsecondary educational institution that the student listed on the financial aid application. The financial aid administrator (FAA) at the school will use the processed information from the ISIR (or SAR) to determine what federal aid the student is eligible to receive. Schools and states may also use information from the ISIR (or SAR) to award their own financial aid.

## **Transactions**

A “transaction” is an interaction between the CPS and the financial aid applicant, or the school acting on behalf of the applicant, that changes any of the data on the applicant’s record. Each transaction results in a new ISIR and SAR, and is identified by transaction number (i.e., 01, 02, 03). A transaction may sometimes be “system generated.” For example, when a student’s eligibility for federal student aid changes on the National Student Loan Data System (NSLDS), the CPS will automatically reprocess the application information and generate a new transaction without additional input from the student or from a school. These system-generated transactions will be sent to the school in a separate electronic message class.

The transactions discussed here will be those where there has been interaction between the student and the system, or the school and the system. When application data for an award year first enter the CPS and are processed, the report that results is called the “01” transaction. The student receives a SAR, electronic SAR, or SAR Information Acknowledgement and the listed schools receive ISIRs. If corrections are necessary, the student makes these changes on the SAR, returns the SAR to the FAFSA Processor, and the information is reprocessed. Alternatively, the student can make the corrections electronically through Corrections on the Web, or a school can enter corrections electronically through EDEExpress or FAA Access to CPS Online, even if the school did not submit the original application electronically. The corrections generate a new record that is identified as an “02” transaction. This second type of transaction is called a “correction,” although the term also is used to refer to the updating of information.

To create a correction transaction, a change must be made to at least one data element. The change can be anything, even an address correction or the addition or change of a school. The first correction is labeled “02,” and subsequent corrections are labeled “03,” “04,” and so forth. Identifying the correct transaction is important when reporting Pell Grant payments and when requesting duplicate ISIRs or SARs. A duplicate will always be generated from the most recent transaction (the one with the highest transaction number) unless another, earlier transaction is specified.

## Highlights and Assumptions

### *Paper System Highlights and Assumptions*

Students are instructed to review information on the SAR carefully for accuracy. Items requiring special attention are “highlighted” by printing them in boldface type. Both the student and FAA need to pay careful attention to questions and responses that are highlighted.

During the edit process, the CPS applies logic in comparing two or more pieces of information provided by the student. The CPS highlights information that is conflicting, missing, or contradictory. Items that are questioned are highlighted on the SAR.

In certain instances the application is rejected because of a conflict—for example, the student answered that he or she is not married but provides financial information for a spouse. The CPS will reject this application (Reject 11) and print the questioned items in boldface type on the SAR. The CPS will not calculate an EFC, because key financial information is conflicting.

In other situations, the CPS makes an “assumption” and does not reject the student’s record. For example, a student reports that he or she is married and provides spouse’s income, but reports only one person in the household. In this case, the CPS assumes there are two persons in the household, highlights both questions and responses on the SAR, and calculates an EFC if the record is not rejected for other reasons. Both the reported and the assumed values are printed, with the word “ASSUMED” in parentheses next to the assumed response that was used in the EFC calculation.

The CPS most often makes assumptions when questions are left blank. Once an answer is assumed, the assumed information is used throughout all the subsequent edits and in the EFC calculation.

If the CPS makes an assumption, but then rejects the record for other reasons, an EFC is not calculated and the assumed values are not used. In this situation, the student receives a SAR with arrows printed next to the questionable line items. The student is then required to correct them.

### ***Electronic System Highlights and Assumptions***

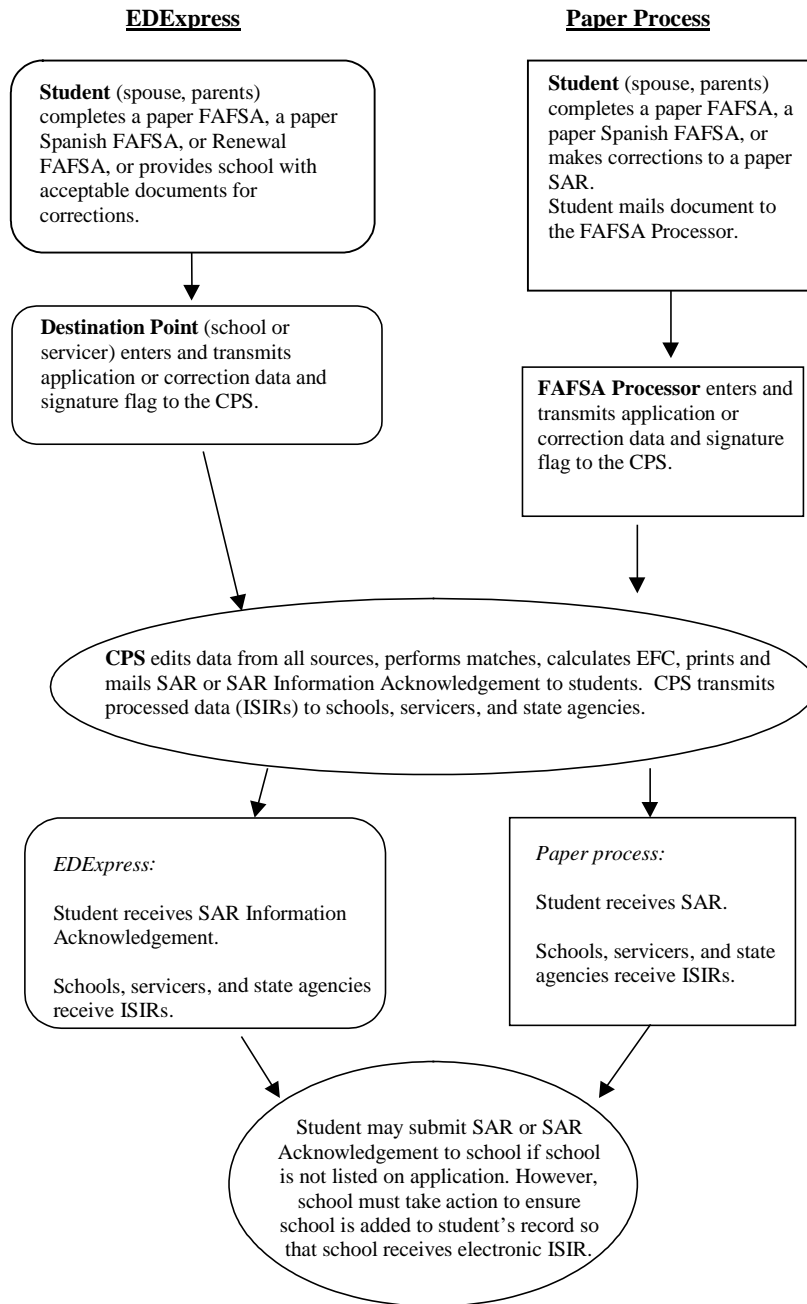

All FSA application software that is used to submit application data contains certain edits that prompt users to resolve inconsistencies before sending the information to the CPS. These edits are contained in the EDEExpress, FAFSA on the Web, Spanish FAFSA on the Web, Renewal FAFSA on the Web, and Corrections on the Web applications. When inconsistencies or missing data would cause the record to be rejected at the CPS, the software does not allow the record to be completed or transmitted until information is changed or added. However, when these inconsistencies would cause an assumption, the user is prompted to review and change the data, but will be allowed to transmit the record even if a change is not made. The ISIR that a school receives will include a flag for each highlighted field and will set an “h,” for highlight, next to the items on which assumptions were made on the printed ISIR.

In the EDEExpress software, a FAA can override certain assumptions that would be made at the CPS. When a FAA sets an override code on an electronic application, the CPS accepts the data as reported and does not make an assumption about that item. For example, if a student indicates more than six family members are attending college, the CPS would assume “one” person in college during processing. If, in fact, there are more than six family members attending college, the FAA can eliminate the need for a correction by setting the appropriate override flag in the EDEExpress software.

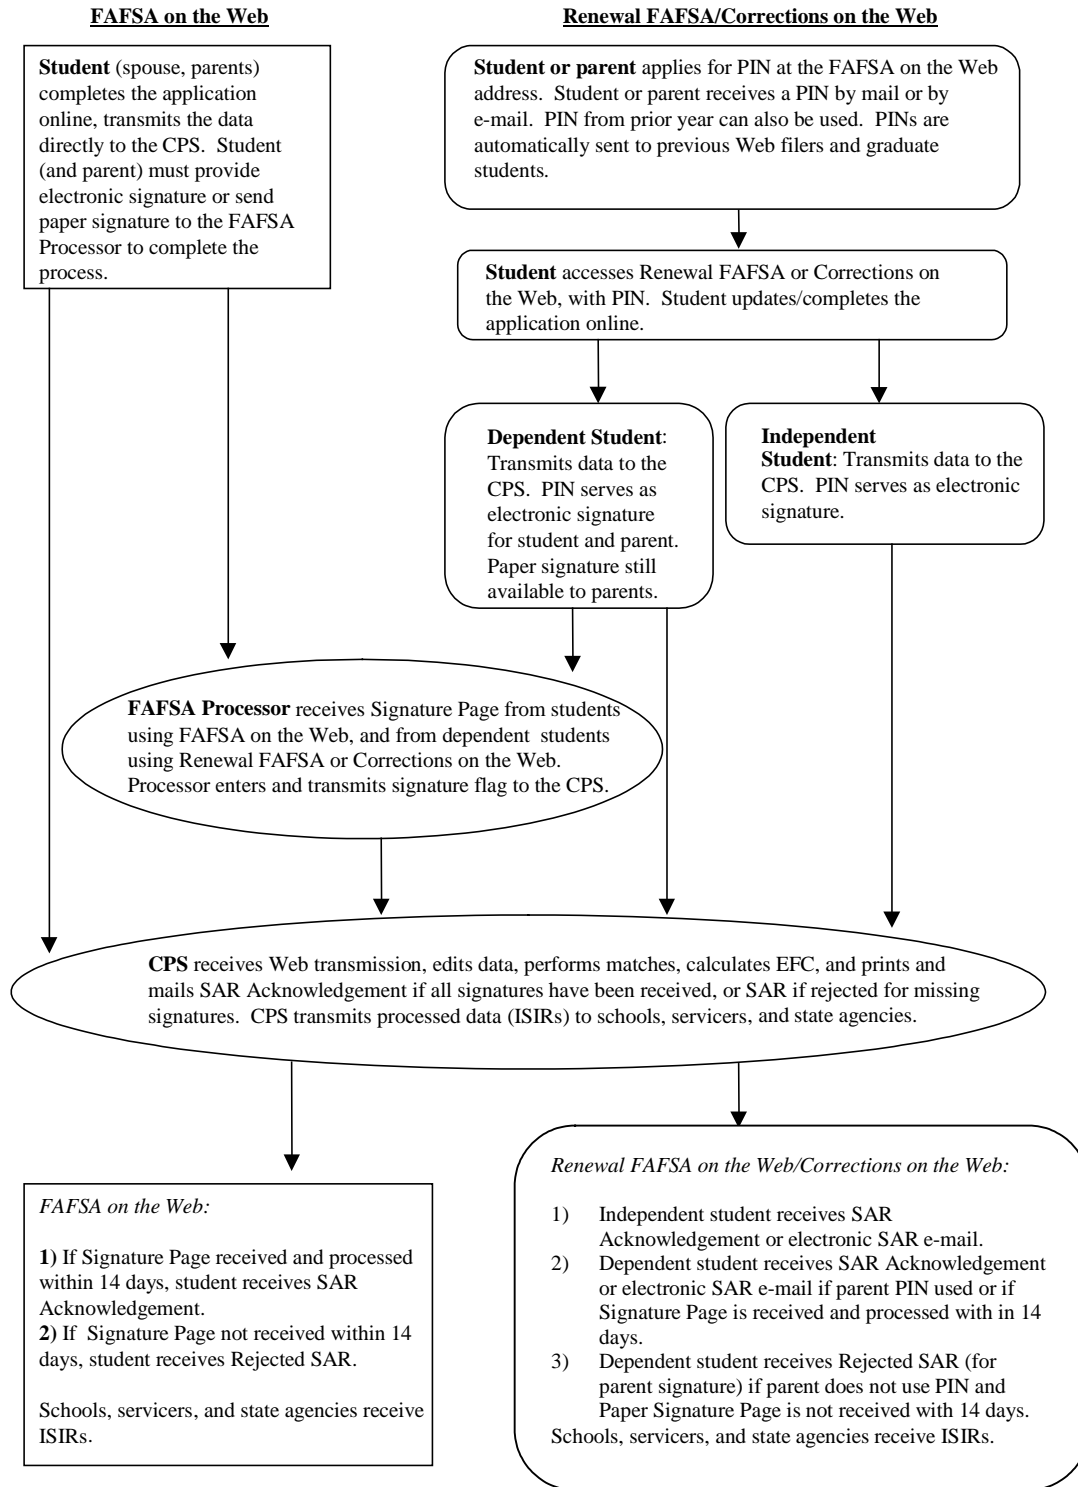

In addition, EDEExpress allows the FAA to override certain “verifiable rejects” by setting a reject override flag before transmitting the student’s application. For example, a student may have an unusually large number of family members. If the FAA sets the appropriate override flag before sending the student’s record, the student’s record will not be rejected. Students who are using FAFSA on the Web, Spanish FAFSA on the Web, or Renewal FAFSA on the Web will be able to set the assumption and reject overrides described above by confirming the data that they have entered.

# 2003–2004 Federal Application Processing System

## *Paper and Electronic (Non-Web) Processes*

## 2003–2004 Federal Application Processing System Web Process

## **II. ISIR DATA**

Schools will receive ISIRs for all students who listed that institution on their FAFSA, Spanish FAFSA, Renewal Paper FAFSA, FAFSA on the Web, Spanish FAFSA on the Web, Renewal FAFSA on the Web, Corrections on the Web, or SAR. More than 7,000 post-secondary institutions participate in some aspect of the Electronic Data Exchange (EDE). These institutions can send application and correction data from the school or through a servicer (either one is called a “destination point”) and receive processed student records (ISIRs) at the destination point.

Appendix G contains an example print format for the ISIR. Student and FAA information will print out on two pages, with an additional page for NSLDS Financial Aid History. Schools do not need to print hardcopy ISIRs; however, in this guide we will use the print format as a tool to discuss the codes that appear on the ISIR record.

The student’s processed application information appears on the printout of an electronic ISIR in a two-column, two-page format with an abbreviated version of each FAFSA question on the left and the student’s response on the right. Information is divided into sections like the FAFSA sections, e.g., Step One: The Student. Questions are not numbered individually, but each section heading identifies the range of FAFSA questions included.

### **ISIR Office Information**

In the section titled Office Information, on page 3 of the sample ISIR, the following information appears:

- DRN
- Primary EFC Type
- Secondary EFC Type
- Processed Date
- Application Data Source
- ISIR Transaction Type
- Source of Correction
- Federal School Code Indicator
- Reject Override Codes
- Assumption Override Codes

The student’s DRN (Data Release Number) will appear in this section only for a transaction type of “0” when the school receiving the ISIR also entered the student’s application or renewal application data. The DRN will not appear on an ISIR in other situations.

### ***Primary and Secondary EFC Type***

These codes tell a FAA which formula was used to calculate the EFC.

- |   |   |
|---|---|
| 1 | Full Needs Test: dependent                            |
| 2 | Full Needs Test: independent without dependents       |
| 3 | Full Needs Test: independent with dependents          |
| 4 | Simplified Needs Test: dependent                      |
| 5 | Simplified Needs Test: independent without dependents |
| 6 | Simplified Needs Test: independent with dependents    |

### ***Processed Date***

The Processed Date is the date this transaction was processed at the CPS.

### ***Application Data Source***

The Application Data Source identifies a FAFSA processor or other source of the application.

- |    |  |
|----|--|
| 11 | Electronic Application (EDE)               |
| 51 | Paper Application                          |
| 52 | Paper Renewal Application                  |
| 55 | Paper Spanish Application                  |
| 61 | FAFSA on the Web, Spanish FAFSA on the Web |
| 62 | Renewal FAFSA on the Web                   |
| 65 | Easy FAFSA on the Web                      |

### ***ISIR Transaction Type***

The ISIR Transaction Type identifies the source of the transaction.

|   |                                 |
|---|---------------------------------|
| 0 | Electronic original application |
| 1 | Automatic ISIR generated        |
| 2 | Electronic correction           |
| 3 | Electronic duplicate request    |

### ***Source of Correction Flag***

The Source of Correction Flag is a field that is set on each correction transaction and indicates what the source of the correction was.

|   |           |
|---|-----------|
| A | Applicant |
| D | CPS       |
| S | School    |

### ***Federal School Code Indicator***

The Federal School Code Indicator verifies the identity of the originating institution.

“Reject” and “Assumption” Override Codes appear because the EDEExpress software allows a FAA to override certain rejects that are designated as “verifiable” rejects. It also allows a FAA to override certain assumptions that the CPS would make about a student’s data when the information appears to be inconsistent. The Office Information section on the ISIR shows which Reject Override Codes and which Assumption Override Codes were set on the transaction.

## **ISIR FAA Information**

The FAA information section displays every relevant piece of information about a student's eligibility in one place. On the ISIR, FAA information is printed on the second page following the summary of application data and is labeled "FAA Information." Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. Using the printed ISIR format as a basis, here are identifications for the codes and flags that appear as FAA information.

### ***Date ISIR Received***

This is the date the ISIR record was received at your institution.

### ***Verification Flag***

The Verification Flag indicates if a student has been selected for verification on any transaction.

|   |   |
|---|---|
| Y | Selected for verification                             |
| N | Not selected for verification                         |
| * | Selected for verification on a subsequent transaction |

### ***Verification Tracking Flag***

The Verification Tracking Flag identifies the priority of the criteria used by the CPS to select applicants for verification and is based on the likelihood of error. The **higher** the number, the higher the priority for selection by the CPS. For example, a "12" in this field has a greater potential for significant error than a student with a "07" in this field. If you plan to use the 30% verification limit, we recommend using this field to prioritize the applicants you choose to verify.

### ***System-Generated Indicator***

These codes identify a system-generated transaction that was initiated by the CPS, rather than resulting from an application or correction sent to the CPS. The codes show why the CPS automatically generated a record.

|       |   |
|-------|---|
| Blank | Not a system-generated SAR                          |
| A     | Applicant released from drug abuse hold file        |
| D     | Duplicate request and drug abuse status has changed |
| I     | INS Secondary Confirmation completed                |
| L     | Duplicate request and NSLDS match data have changed |
| N     | NSLDS post-screening transaction                    |
| Z     | Reprocessed transaction                             |

ISIRs for system-generated transactions will be sent to schools in a separate electronic message class.

### ***FAA Adjustment Flag***

This flag indicates that a transaction resulted from a professional judgement adjustment requested by a FAA.

|       |                                     |
|-------|-------------------------------------|
| Blank | No adjustment processed             |
| 1 (Y) | FAA adjustment processed            |
| 2 (F) | FAA adjustment attempted but failed |

When a FAA uses professional judgement to change a data item on a SAR or ISIR, only the school that made the change will receive the new ISIR transaction.

### ***Transaction Receipt Date***

The date appearing in this position is the date that the FAFSA processor or the CPS received the input information that generated the transaction. The receipt date for the first application will be a fixed date; the transaction receipt date, however, will change each time a new transaction is generated. For example, a student sends in a Renewal Application that is received by the FAFSA processor on March 13, 2003. This first transaction SAR and ISIR would have an Application Receipt Date and a Transaction Receipt Date of March 13, 2003. If the student then mails in a SAR with corrections and it is received on April 17; the 02 transaction would show an Application Receipt Date of March 13, 2003 and a Transaction Receipt Date of April 17, 2003.

### ***Reprocessing Code***

This code provides information about batches of records that are reprocessed by the CPS for any reason. When the SYS GEN flag is set to “Z,” this position will contain a two-digit number, beginning with “01” and incrementing each time a group of records is reprocessed. Check the IFAP Web site at **[ifap.ed.gov](http://ifap.ed.gov)** for announcements that will define the reason associated with a particular two-digit number.

### ***Processed Record Type***

This code distinguishes an application from a correction that was made to a prior or existing transaction.

|       |   |
|-------|---|
| Blank | Original Application (from any source)    |
| C     | Correction Application                    |
| H     | Correction (from any source) or Duplicate |

### ***Early Analysis Flag***

Using FAFSA on the Web or Spanish FAFSA on the Web, a student may indicate that he or she is applying for early admission for the 2004–2005 school year. The software sets a flag on the student’s record that appears in the FAA information area. The early analysis indicator will appear on the SAR and the ISIR, but not on the SAR Information Acknowledgement. Please note that the early analysis flag does not invalidate the SAR—it simply notifies the school that a student checked the early analysis box on a FAFSA on the Web application. If the student actually enrolls for the 2003–2004 school year, the early analysis record may be used for that school year. The early analysis flag may be corrected to blank using EDEExpress.

|       |  |
|-------|--|
| Blank | Not an early analysis student  |
| Y     | Student indicated early analysis on FAFSA on the Web or Spanish FAFSA on the Web |

### ***Rejects Met***

Up to seven reject reason codes can be printed in this position. Refer to Appendix A for the reject reason codes and the comment numbers associated with certain types of rejects.

### ***Dependency Override***

This flag identifies a record that resulted from an application or correction on which a FAA made a dependency override request. Initial applications allow overrides to be made in one direction only: from dependent to independent. EDEExpress allows a FAA to cancel a previous override.

|       |  |
|-------|--|
| Blank | No Dependency override                     |
| 1 (Y) | FAA override from dependent to independent |
| 2 (N) | Dependency override cancelled              |
| 3 (F) | FAA override attempted but failed          |

When a FAA performs a dependency override, only the school that submitted the override will receive the new ISIR transaction.

### ***Duplicate Request***

This flag indicates if this transaction is a result of a duplicate request.

|       |                               |
|-------|-------------------------------|
| Blank | Not a duplicate SAR           |
| D     | Requested as a duplicate copy |

### ***Correction # Applied To***

This field only applies to transactions greater than 01 and indicates which prior transaction the correction was applied against. For example, if you are looking at an 03 transaction and the Correction # Applied To field is 02, that means that corrections were made against the 02 transaction to create the 03 transaction.

### ***Application Receipt Date***

This date shows the date the paper application was received by the FAFSA processor, or the date an electronic FAFSA transmission was received by the school in EDEExpress or entered by the applicant in one of the electronic products.

### ***Input Record Type***

This identifies the type of input that produced the transaction.

|       |   |
|-------|---|
| Blank | Original Application (paper or electronic for both English and Spanish) |
| C     | Correction Application  |
| D     | Duplicate Request   |
| H     | Correction (paper or electronic)  |
| Q     | EDEExpress Quick Correction   |
| R     | Renewal FAFSA on the Web or Paper Renewal FAFSA                         |
| S     | Web Signature Pages   |
| V     | EDEExpress Verification Corrections                                     |

### ***Paid EFC Type***

This identifies which EFC, primary or secondary, was placed in Paid EFC.

|   |           |
|---|-----------|
| P | Primary   |
| S | Secondary |

### ***Pell Eligible Flag***

This flag alerts schools to an applicant's Pell Grant eligibility status. A “Y” confirms that a student’s EFC and undergraduate status makes him or her eligible for a Pell Grant, and that the record has been included in the payment system database.

|       |                               |
|-------|-------------------------------|
| Blank | Not eligible for a Pell Grant |
| Y     | Eligible for a Pell Grant     |

If a student who is an undergraduate incorrectly reported on the FAFSA that he or she will be a graduate student or has a bachelor’s degree, this information **must** be corrected. Otherwise, he or she will be considered ineligible for a Pell Grant and the school will be unable to receive Pell funds for that student.

### ***Primary and Secondary EFCs/Alternate EFCs***

The ISIR FAA Information section contains the headings “Months,” “Primary EFC,” and “Secondary EFC.” If both a Primary and a Secondary EFC appear, it means the student qualified for the Simplified Needs Test (SNT) but also provided information about assets. Two calculations were performed, producing the Primary EFC (asset information was not included in the calculation) and the Secondary EFC (asset information was included in a full-data calculation). If only a Primary EFC appears, it means either 1) the student did not meet the Simplified Needs Test criteria and only the full-data calculation was done, or 2) the student met the SNT criteria and provided no asset information, or provided incomplete or inconsistent asset information and only one calculation could be performed.

The figures printed for each of the twelve months represent alternate EFCs that an FAA must use to award aid—other than Federal Pell Grants—for an academic year that is less than or greater than nine months. For a dependent student, the alternate EFCs are calculated by the CPS according to a formula prescribed in the law. For the independent student, the CPS calculates a simple proration of the EFC by month for less than nine-month enrollment.

If a student meets the automatic zero criteria, the CPS will not calculate an alternate EFC. For further information, please refer to the “EFC Formula Information” section of the *FSA Handbook*, located at **[ifap.ed.gov](http://ifap.ed.gov)**.

### ***Intermediate Values***

These abbreviations represent the intermediate steps used in calculating the EFC. They show the separate components of the need analysis formula, such as the “employment expense allowance” or “parents’ contribution from assets.” These components are defined in the law. The values can be useful to FAAs in doing recalculations or in making professional judgement adjustments to data items.

The intermediate values are identified as follows:

|      |  |
|------|--|
| TI   | Total Income   |
| ATI  | Allowances Against Total Income                          |
| STX  | State and Other Tax Allowance                            |
| EA   | Employment Allowance                                     |
| IPA  | Income Protection Allowance                              |
| AI   | Available Income   |
| CAI  | Contribution from Available Income (Independent Student) |
| DNW  | Discretionary Net Worth                                  |
| NW   | Net Worth  |
| APA  | Education Savings and Asset Protection Allowance         |
| PCA  | Parents’ Contribution from Assets                        |
| AAI  | Adjusted Available Income                                |
| TSC  | Total Student’s Contribution                             |
| TPC  | Total Parents’ Contribution                              |
| PC   | Parents’ Contribution                                    |
| STI  | Student’s Total Income                                   |
| SATI | Student’s Allowance Against Total Income                 |
| SIC  | Dependent Student’s Income Contribution                  |
| SDNW | Student’s Discretionary Net Worth                        |
| SCA  | Dependent Student's Contribution from Assets             |
| FTI  | FISAP Total Income                                       |

More information on the need analysis formula and methodology for calculating the EFC is available in the 2003–2004 *FSA Handbook: Student Eligibility*.

### ***Auto Zero EFC Flag***

An applicant who meets certain tax filing and income criteria will qualify automatically for an expected family contribution (EFC) figure of “0.” When these criteria are met, the CPS assigns a “0” EFC and does not perform a full calculation except for Total Income, Student’s Total Income, and FISAP Total Income. Only these three intermediate values will appear in the FAA Information section.

|       |   |
|-------|---|
| Blank | Does not meet criteria                    |
| Y     | Student meets automatic zero EFC criteria |

### ***EFC Change Flag***

This flag indicates whether the EFC has increased or decreased between a correction transaction and the transaction to which the correction was applied.

|       |               |
|-------|---------------|
| 1     | EFC increased |
| 2     | EFC decreased |
| Blank | No change     |

### ***SNT Flag***

This flag gives information about the Simplified Needs Test (SNT), which excludes asset information from the EFC calculation. It is performed if an applicant meets certain criteria for tax filing status and income level.

|   |  |
|---|--|
| Y | SNT was met                                |
| N | SNT was not met or could not be determined |

### ***Duplicate SSN Flag***

This flag is set to Yes if another record was found on the CPS database with the same SSN but a different last name.

### ***Subsequent App Flag***

This flag indicates a transaction that resulted when a second, or subsequent, application for the same student was processed. Except for address, telephone number, e-mail address, and school choices, the data on the SAR or ISIR generated by a subsequent application will be the same data the student submitted on the previous application. If a different address, telephone number, e-mail address or school choices are provided, the new information will appear in these fields on the new transaction.

|       |                              |
|-------|------------------------------|
| Blank | Not a subsequent application |
| Y     | Second or later application  |

### ***Match Flags***

These alpha or numeric codes show the results of matching the applicant record with databases containing information that can affect eligibility. A detailed discussion about the flags or codes that will appear in the FAA Information section for the SSN Match Flag, SSA Citizenship Code, INS Match Flag, Selective Service Match Flag, NSLDS Match Flag, VA Match Flag, INS Secondary Confirmation Match Flag, Selective Service Registration Flag, and NSLDS Database Results Flag can be found in Appendix B.

### ***INS Verification Number***

The INS Verification Number also appears under the “Match Flags” heading of FAA Information. This is a 15-digit confirmation number that the INS returns when a match was conducted. The FAA must use this number when secondary confirmation is necessary.

### ***NSLDS Transaction Number***

The NSLDS Transaction Number appears at the end of the match flag section. The NSLDS Trans Number is the number of the last transaction on which the student’s NSLDS data changed as a signal to the FAA to review the NSLDS information on a particular transaction.

### ***NSLDS Database Results Flag***

The NSLDS Database Results Flag is also at the end of the match flag section. Each record sent to NSLDS will be returned with an NSLDS Results Flag set to one of the following values:

Blank = Record not sent to NSLDS and all NSLDS fields will be blank

1 = Match was found and NSLDS data sent to CPS

2 = SSN match but name or DOB did not match

3 = No match found

4 = Match was found but no NSLDS data sent to CPS

5 = Real-time transaction not sent to NSLDS

### ***Comment Codes***

The last line in the FAA information section shows the codes for comments generated on the record that are important to the FAA. Standard comments to the student are not included here. FAAs can review the comment codes and not have to read every comment provided on the SAR to find information that may require FAA action. Up to 20 comment codes may be printed.

The EDEExpress software allows comment text to be printed, if desired. All comment codes and text used in 2003–2004 are provided on both the U.S. Department of Education’s Student Financial Assistance Download (FSAdownload) Web site located at **FSAdownload.ed.gov** and the IFAP Web site at **ifap.ed.gov**.

## **NSLDS Financial Aid History**

### ***Flags (Upper Section)***

With the exception of Discharged loan code, the flags at the top of the Financial Aid History page will display a value of either “Y” for Yes or “N” for No.

### ***Overpayment Flag***

The Overpayment flag may also display a value of “S” when satisfactory repayment arrangements have been made. The Contact field for each Overpayment flag will display a school code (OPEID), ED Debt Collection Service Region code, N/A (when no overpayments exists), or “Access NSLDS” if there is more than one overpayment for a specific aid type (Pell, FSEOG, Perkins).

### ***Discharged Loan Flag***

New for 2003-2004, the Discharged loan flag reflects the status of any loan discharged due to disability or death. If this flag is present, the “C” flag is set on the SAR/ISIR and a comment will be given. This field has been expanded to include additional codes. New values have been defined for 2003-2004 as follows:

D = Death

R = Reaffirm

C = Conditional discharge

P = Permanent discharge

M = Multiple codes

N = None

### ***Defaulted Loans Flag***

The Defaulted Loans flag will be set when any loans exist in a defaulted status. Appendix C includes a chart for 2003-2004 loan status codes and eligibility.

### ***Loan Satisfactory Repayment Arrangements Flag***

The Loan Satisfactory Repayment Arrangements flag reflects the status of loans with a “DX” or “XD” (Defaulted, satisfactory arrangements made including six consecutive monthly payments). If this flag is set to “Y,” a comment will be included on the ISIR informing the school of that status, but no “C” flag will be set.

### ***Postscreening Reason Codes***

In the past, only one Postscreening Reason Code was included on the ISIR. Beginning with 2003-2004, a postscreened record can have up to 3 different codes sent on the same ISIR. Postscreening reason codes now include 3 additional codes: Reasons 11, 12, and 13. Codes 01-10 and 99 remain the same.

### ***NSLDS Postscreening***

For 2003–2004, we have expanded our postscreening codes and will now list up to three postscreening codes, which helps schools identify any student whose eligibility for federal student aid may have changed subsequent to the last time a SAR/ISIR transaction was produced. To find cases where a student’s eligibility status has changed, NSLDS will scan its database on a weekly basis.

The three new postscreening codes that have been added are:

- 11        Applicant no longer exceeds Subsidized aggregate loan limit
- 12        Applicant no longer exceeds combined loan limit
- 13        Change in disability status between Conditional and Permanent or vice versa

Codes 1-10, 99, and Blank have not changed, and are listed below:

|       |   |
|-------|---|
| Blank | Not an NSLDS postscreening transaction  |
| 01    | The student entered default on a Title IV loan that was previously not in default |
| 02    | Became obligated for a new overpayment of a Title IV grant or loan                |
| 03    | Cleared a previously reported Default of a Title IV loan                          |
| 04    | Cleared an Overpayment obligation of a previously reported Title IV grant or loan |
| 05    | Master Promissory Note status change  |
| 06    | A loan was discharged   |
| 07    | A loan went out of discharged status  |
| 08    | Student has a loan for a closed school  |
| 09    | Student has exceeded Subsidized loan limit  |
| 10    | Student has exceeded combined loan limit  |
| 99    | The “Other” category  |

When any of these situations occur, the CPS system generates a new SAR/ISIR transaction that includes, as part of the NSLDS Financial Aid History section, the changed information. (Students who are eligible, will receive an electronic SAR e-mail instead of a paper SAR for system-generated transactions.) These transactions include a “system-generated” flag of “N” (for “NSLDS”) and a special SAR/ISIR comment (comment 004) that informs the student and the school that a change in NSLDS is being reported that may affect the student’s eligibility for Title IV aid. A separate message class is used for system-generated ISIRs, including those produced as a result of NSLDS postscreening. Postscreening Reason Codes are included in the top section of the Financial Aid History page. If the transaction is system generated as a result of postscreening, a numeric value is displayed in this field. Values 01–13 correspond to the situations described above, and a code of 99 is used for any other data changes that generate the transaction. Schools must act on the updated information they receive regarding a change in a student’s eligibility for Title IV aid and must ensure that a student remains eligible for payment; otherwise, the school will be liable for improperly disbursed funds.

Please note that the status changes reported on a 2003–2004 ISIR may have a bearing on eligibility for payments to the student during the 2002–2003 award year.

If the school has already disbursed funds to a student who is found ineligible, the school must contact the student to arrange for repayment. If the student has received an FFEL loan, the school must notify the lender. If the student has received a Federal Direct Loan, the school must notify the Direct Loan servicer.

### ***Aggregate Amounts for FFEL/Direct Loans and Perkins Loan Section***

This section includes information on Subsidized Loans, Unsubsidized Loans, and Combined Loans fields that reflects the total amount of subsidized and unsubsidized loans the student has borrowed.

NSLDS receives the subsidized and unsubsidized breakdown of a Direct Consolidation Loan and then allocates it appropriately in the subsidized, unsubsidized, and combined aggregate amounts. Because NSLDS does not receive similar breakdowns for FFEL Consolidated Loans, it has developed an algorithm to determine these amounts. For purposes of calculating aggregates for Prescreening and Postscreening, NSLDS assumes that the total outstanding balance of an FFEL Consolidation Loan consists of the same ratio of subsidized and unsubsidized loans as was the sum of the original underlying loans. If NSLDS cannot identify the underlying loans for an FFEL Consolidation Loan, NSLDS will count the entire FFEL Consolidation Loan in the subsidized aggregate balance. In this instance, schools will then need to calculate the actual breakdown of the FFEL Consolidation Loan to determine whether the student has actually exceeded his or her aggregate limits.

The Outstanding Principal Balance and Current Year Loan Amount for Perkins Loans are included in this section. For all Direct Loans and FFEL loans in an out-of-school status or where the loan period end date plus 90 days has passed, the Aggregate Outstanding Principal Balance amount is determined by comparing the Net Loan Amount, Disbursed Amount, and Outstanding Principal Balance.

If all three of these are greater than zero, use the one with the lowest value. If any one of these is equal to zero, do not use zero in the formula; use the lesser of the other two values.

For FFEL loans in an in-school or in-grace status originated up to 90 days after the loan end period date, the Aggregate Outstanding Principal Balance amount is determined.

as follows. If either Outstanding Principal Balance or Disbursed Amount is greater than zero, use the one with greater value, but do not exceed the net loan amount. If both are equal to zero, use zero. These are usually loans guaranteed/approved but not disbursed. Aggregate Outstanding Principal Balance formulas for Direct Loans have not changed.

For Direct Loans in an in-school status and originated up to 90 days after the loan end period date, Pending Disbursements are calculated by subtracting Total Disbursed from the Net Loan amount. For FFEL loans in an in-school status and up to 90 days after the loan end period date, Pending Disbursements are calculated by subtracting the Aggregate Outstanding Principal Balance from the Net Loan amount. If the Aggregate Outstanding Principal Balance is *greater* than the Net Loan amount, zero is used. Pending Disbursements are not calculated for any Direct or FFEL loan in an out-of-school status or after the loan period end date plus 90 days.

### ***Pell Payment Data Section***

Pell Grant data shows current award year (2003–2004) payment information as reported by schools to Common Origination and Disbursement (COD). Information for up to three schools is displayed. This information includes the following: (Attending) School Code, Transaction Number, Scheduled Award Amount, Award Amount, Disbursed Amount, Percent Scheduled Used, As Of (the disbursement date), Pell Verification Flag, and EFC. A message instructing the school to access NSLDS for additional Pell Grant data will display when the student has more than three payment records for the award year. The field Remaining Amount To Be Paid was removed.

### ***Loan Detail Section***

The information appearing for each loan in the Loan Detail section is as follows: Loan Type, Net Loan Amount, Loan Begin Date, Loan End Date, GA Code, School Code, Grade Level, Contact, Contact Type, Additional Unsubsidized Loans, Loan Type, Capitalized Interest, Date of Last Disbursement, Amount of Last Disbursement, Current Status Code, Current Loan Status Date, Outstanding Principal Balance, and Outstanding Principal Balance Date. If there is no information to report, “N/A” is displayed. If a loan is in default, the loan status code is in bold on the SAR. Flags for Additional Unsubsidized Loans and Capitalized Interest may also display for a loan record. For Direct Loan, when an additional Unsubsidized Loan has been awarded, one of the following reason codes will display: P = PLUS loan denial, H = Health Profession, B = both, or N = neither. Capitalized interest will show as either “Yes” or “No.”

The Loan Detail section continues to display up to six open loans (including Perkins Loans). The loans are chosen with regard to their current loan status. Defaulted loans will appear first, followed by discharged loans. Other loans will follow, sorted by “Loan Begin Date.” If there are more than six loans on the database, a message to “Access NSLDS” for additional information will be displayed. The Web site, [www.nslsfp.ed.gov](http://www.nslsfp.ed.gov), will display this loan information.

A “Contact Type” is included for each loan. The contents of the Contact Type field will be “SCH” for School, “LEN” for Lender, “DLS” for Direct Loan Servicer, “EDR” for ED Region, “GA” for Guaranty Agency, or “N/A” for not applicable. Information about whom to contact for each loan in a default status will be included in the comment text.

### ***MPN Information Section***

“MPN Information” is located at the end of the Loan Detail section. The Direct Loan Subsidized/Unsubsidized MPN will identify whether a student has a Master Promissory Note for Subsidized and/or Unsubsidized Direct Loans on file at COD. A new MPN identifier is added for the 2003-2004 year called the Direct Loan PLUS MPN. It will identify if there is an MPN on file at COD for PLUS loans. Both MPN indicators will identify the MPN as Active, Inactive, Closed, Unavailable, or None.

## **Additional ISIR Data**

In addition to the information described above that is printed on the hardcopy ISIR, we will explain two ISIR fields not printed on the EDExpress ISIR: Field Correction flags and FAFSA Data Verify Flags.

### ***Field Correction Flags***

The ISIR record contains a Correction Flag for each field on the FAFSA/SAR. These flags are set to a value of 0 if the field has never been corrected. The flag is set to a value of 1 if the field is corrected on the current transaction. A value of 2 indicates that the field was corrected on a previous transaction. These fields can be used to identify either the fields that were corrected on an individual transaction, or all fields that have ever been corrected by an applicant.

### ***FAFSA Data Verify Flags***

New for 2003–2004, FAFSA Data Verify Flags are found on the ISIR record (positions 702 through 821). Each FAFSA Data Verify flag byte corresponds to a specific SAR field and indicates fields corrected to the same value on the transaction being corrected.

If a field was verified as the same data as the transaction being corrected, the FAFSA Data Verify flag will contain a value of 1. A value of 0 signifies that this field was not corrected to the same value and a 2 means the CPS has asked that the field be verified.

These flags were added by request of Third-party Servicers to assist them when doing correction edits.

### **III. CORRECTIONS AND UPDATES**

The first steps in the application process are sending a student's application information into the Central Processing System (CPS) and receiving that student's processed application data back from the system. When data must be updated, under the limited circumstances allowed by regulation, or must be corrected, additional steps are required.

In EDEExpress or FAA Access to CPS Online, changes (corrections or updating) can be made to any student's record regardless of whether it originally entered the system as a paper or an electronic application. Both updates and corrections are referred to as correction transactions. The electronic correction process requires that the school that inputs the new information maintain signed correction documentation.

Documentation can be a paper SAR or other documents such as tax returns, a verification worksheet, or a change-of-address form. The FAA enters the changes on the EDEExpress FAA Access to CPS Online screen, transmits them to the CPS, and receives an ISIR containing the new processed data. In this situation, when the input is electronic, the student receives a SAR Information Acknowledgement.

The SAR is a vehicle for corrections in the paper system, or for students who file using FAFSA on the Web, Spanish FAFSA on the Web, or Corrections on the Web and (1) are rejected for lack of signatures, and (2) do not have a SSN Matching Flag of 4. Students may use the SAR to correct and update their application information, and mail the SAR to the FAFSA processor for data entry.

All other students receive either a SAR Acknowledgement or an electronic SAR e-mail. Using their PIN, these students should make their corrections electronically through Corrections on the Web.

After the corrections are processed, the student receives a new SAR if the corrections were made using a paper SAR, or a SAR Information Acknowledgement or an electronic SAR e-mail if the corrections were made using Corrections on the Web. In all cases, the school receives an ISIR.

As mentioned previously, when corrections need to be made to data reported on the SAR Information Acknowledgement, the student may have corrections transmitted electronically through EDEExpress at a school, FAA Access to CPS Online at the school. Alternately, the student may request a duplicate SAR and send corrections or updates to the FAFSA processor using the SAR, or the student may make the corrections using Corrections on the Web.

## **SAR Corrections**

The “YOU TOLD US” column on the SAR shows a shortened version of each numbered item that corresponds to a question on the FAFSA, and has printed beneath it the student’s response to that question. The second column, “WRITE IN INFORMATION FOR NEW OR CORRECTED ITEMS ONLY” has boxes and ovals that resemble the answer fields on the FAFSA, and allows the student to indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in boldface type) require special attention. Highlighting means the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question was left blank, or a positive number might be assumed when the answer to an income question was given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word “ASSUMED” will appear in parentheses with the assumed value. Assumed values are used by the CPS in performing the calculation and should always be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

Fields that show assumed values or that trigger certain edits are identified on the ISIR. The fields will have an “h” printed next to the questioned item and the assumed items are designated with an asterisk (i.e., \*). The student can always correct other items, if necessary, whether or not they are highlighted.

If the record has been rejected, an arrow will print in the “YOU TOLD US” column pointing to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible, and the item is necessary to perform an EFC calculation. The student may also correct other items, if necessary, even if they are not highlighted.

At the top of the SAR are instructions to the student explaining the meaning of the arrows, and the proper way to verify an answer, fill in an oval, or to delete an answer. To verify a previously reported answer, the student must rewrite the same value in the answer fields and return the SAR.

Sometimes students are caught in a reject “loop” because they don’t respond to all of the highlighted and arrowed items to turn off the reject, or because they provide new information that the edit check still considers to be inconsistent or questionable.

## **Parent Information for Independent Students**

The SARs for dependent students and for independent students contain exactly the same sections and numbered items as the FAFSA. Parent information will be printed in the parent section for an independent student if the student provided it on the FAFSA, although the EFC calculation will not include parent data. Students in certain health profession programs are advised that they may have to provide parental data, because the data are required by many health profession schools to award Title VII aid. Parental data provided by independent students will not be subject to any edits, but the data will appear on the SAR and on ISIRs and be carried forward on all transactions.

Parental data are always required for dependent students and will be edited and used in the EFC calculation.

## **Signatures for SAR Corrections**

On the last page of the SAR, a message in the left column shows the address where SAR corrections should be mailed.

In the right column of the same page, the student is asked to certify that any corrections made on the SAR are accurate and complete. The student must sign this statement. For a dependent student, one parent must also sign.

## **Reject 16 SARs—Signatures and Certifications**

SARs with Reject 16 are mailed to students who submitted their applications via FAFSA on the Web or Spanish FAFSA on the Web, but did *not* follow up with a signed Signature/Certification Page, or the page was incomplete and could not be processed. If the record indicates that a printer was not available to the student, the CPS processes the application immediately and mails a Reject 16 SAR. If the record indicates that a printer was available, the CPS holds the transmission for up to 14 calendar days while waiting for a Signature Page. If a signature is not received in 14 days, the CPS processes the record and sends a Reject 16 SAR. A Reject 16 SAR will not have a calculated EFC and will contain the full Certification Statement that appears on the FAFSA.

To receive an EFC calculation, the student must sign the SAR and return it to the FAFSA processor's address indicated on the SAR. The student can also make other corrections to the Reject 16 SAR at the same time, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

Note that Reject 16 may appear with other rejects or highlighted data requiring correction or verification.

A student who has a PIN may also sign his or her record electronically on the Web as well as make other corrections using Corrections on the Web. As another option, schools may obtain the necessary documentation and submit the student signature using the EDEExpress software.

## **Reject 15 SARs—Renewal FAFSA on the Web**

As explained in 2003–2004 Renewal Application Data (RAD) Process Guide, students who receive a paper Renewal FAFSA from the Department may be able to apply using Renewal FAFSA on the Web. A student must reside at the address that is currently in the applicant database to request a PIN at the Department’s Web site: **www.pin.ed.gov**. With the PIN, a student may access his or her 2002–2003 application information, respond to the required Renewal FAFSA questions, update or correct any of the previous information, and transmit the 2003–2004 Renewal Application over the Web.

For an independent student, the PIN serves as signature and certification, eliminating the need to print and mail a signature page to complete the application process. For a dependent student, the PIN serves as the student’s signature and certification, but the parents must also provide a parent’s signature, either on a Signature Page or electronically with a PIN, to complete the process.

If a printer is available, the dependent student may print out a Signature Page, obtain the parent’s signature, and mail it to the processor. The transmitted application is held up to 14 days while waiting for a Signature Page. If a signature is not received in 14 days, the CPS processes the record and sends a Reject 15 SAR (Reject 15 is used when the parent signature is required, but missing from an application or SAR). The dependent student’s parent must sign and return the Reject 15 SAR to complete the process for Renewal FAFSA on the Web.

If a printer is not available, the student will indicate this on the electronic transmission. The CPS will process the record immediately and send a Reject 15 SAR.

## **Reject 14 SARs**

SARs with Reject 14 will be mailed to students who submitted paper FAFSAs or SARs without a student signature or if it was sent to the FAFSA Processor before the January 2, system start up date. To receive an EFC calculation, the student must sign the SAR and return it to the FAFSA processor’s address indicated on the SAR. The student can also make other corrections to the Reject 14 SAR at the same time, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

Note that Reject 14 may appear with other rejects or highlighted data requiring correction or verification.

A student who has a PIN may sign his or her record electronically on the Web as well as make other corrections using Corrections on the Web. As another option, schools may obtain the necessary documentation and submit the student signature using the EDExpress software.

## **School Code Corrections**

There are a number of ways students can correct the school codes listed on their record to replace, add, or remove additional schools. On the SAR, the student can correct any of the six school code fields and the new code will be added in the position in which it was entered on the SAR. If the student chooses a position that already has a school code in it, the previous code will be replaced by the new school code. The school with the previous code that was removed will not receive ISIRs for the student. The same results will occur if the school correction is made using EDExpress or if the student makes the request over the telephone through the Federal Student Aid Information Center. However, if the correction is made using EDExpress, the processing system will not process a change that will eliminate the school that transmitted the correction from the student's record.

If the student makes a school code change by writing a letter and sending it to the FAFSA processor, only the schools listed on the letter will appear on the resulting SAR/ISIR. All of the previous schools will be deleted.

## **APPENDIX A**

### **2003–2004 REJECT CODES AND REJECT REASONS**

#### ***Reject Reason Codes***

Reject reason codes can be either alpha or numeric. Alpha codes indicate reject reasons that are verifiable—that is, the student can verify the questionable data by re-entering the same value, or can correct it to a different value. Numeric codes are not verifiable; the questioned data must be changed or provided. In all reject situations, the questioned information is highlighted on the SAR and an EFC is not calculated.

A “verify” action on the SAR will override a CPS edit. For example, if a student reports an exceptionally large number of family members, e.g., 20, the student's application will get Reject W. The student can verify the information by correcting the item to the same value and Reject W will not be triggered again.

However, if instead of verifying that 20 in the family is correct, the student changes 20 to 21, the corrected data will be subject to the same edits and will hit Reject W again.

In EDEExpress, an FAA can override some verifiable rejects before transmitting the student's data to the CPS if the FAA knows that the reported information is correct. In FAFSA on the Web, the student can also override the reject by verifying the information they have entered.

Reject codes and reasons, and their associated SAR comment codes, are listed here. If a student is rejected for more than one reason, the reject codes will appear in the FAA Information Box in priority order. The resolution for a rejected SAR is always the responsibility of the student, not the institution, and the SAR comment generated by the reject explains what action the student must take.

## Table of Reject Codes and How to Respond to Each

| Reject Code | Reject Reason   | Action  | Comment Code |
|-------------|---|---|--------------|
| A           | Date of birth year equals 1900 through 1928.  | Verify or correct the Date of Birth.  | 069          |

## **APPENDIX B**

### **2003–2004 DATABASE MATCHES AND MATCH FLAGS**

As we did in 2002–2003, we are providing an expanded chart to show match flags for all the matches, the reasons associated with these match results, the number and text of the SAR/ISIR comment that is triggered, and information on what action the institution needs to take when resolution of a match problem is required.

For the NSLDS match, we have also shown the relationship between the NSLDS Match Flag and the NSLDS Results Flag.

#### **How to Use the Chart**

The information is provided for you to use as a quick reference. The *FSA Handbook: Student Eligibility* contains more detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches.

A flag of “C” is an indicator that institutional resolution is required. The “C” flag will be printed on the SAR next to the EFC if any of the conditions described in the chart are met.

**Note:** Some of these data match results will generate a rejected record. Comments associated with a match results reject do not generate a SAR “C” code. However, a SAR “C” code could possibly be generated by another match result comment and will be printed on SARs rejected for other than match results reasons. An EFC is not provided on any rejected records.

An asterisk (\*) in the “Match Flag” column of this chart indicates that a match flag value is not generated for cases that were not/could not be sent to the matching agency.

Note 2: In all cases, if school does not receive a response to paper secondary confirmation request in 15 days, student is eligible for aid if documentation appears to support claim of eligible noncitizen.

**APPENDIX D**  
**2003–2004 SAR AND SAR INFORMATION ACKNOWLEDGEMENT**

For each transaction processed at the Central Processing System (CPS), an output document is sent to the applicant. This will be either a paper Student Aid Report (SAR) or SAR Information Acknowledgement or an e-mail with information for accessing a electronic SAR. The type of document that is sent is determined by the type of record that was submitted by the applicant as follows:

| <b>Record Submitted</b>   | <b>Output</b>                   |
|---|---------------------------------|
| Paper/Renewal FAFSA or SAR  | SAR                             |
| FAFSA on the Web, Renewal FAFSA on the Web, or Correction on the Web                    | SAR Information Acknowledgement |
| FAFSA on the Web, Renewal FAFSA on the Web, or Correction on the Web without signatures | SAR                             |
| EDExpress FAFSA or Correction   | SAR Information Acknowledgement |
| FAA Access to CPS Application or Correction   | SAR Information Acknowledgement |

Students who meet the following criteria will receive an e-mail for accessing the electronic SAR instead of the paper SAR:

1. E-mail address exists and is valid,
2. SSA match equals 4,
3. No signature rejects on the record, and
4. Transaction is not a result of a subsequent application.

The SAR has been designed to serve two basic purposes:

1. notify the student of application and eligibility status;
2. provide a means for correcting or verifying applicant data.

The SAR Information Acknowledgement is designed to notify the student of application and eligibility status. If corrections are needed, the student will use Corrections on the Web or submit them through the school using EDExpress.

The electronic SAR is designed to notify the student of application and eligibility status more quickly than by either the paper SAR or the SAR Acknowledgement. It enables the student to view the SAR online and to print the online SAR document as often as needed. It also links the student directly to Corrections on the Web for correcting or verifying the applicant data.

## **SAR**

All SARs will be eight-page documents. The first four pages are in a letter format and include the comment text, NSLDS information, and FAA information. The last four pages display the question responses reported by the student and provide space for making corrections. Each page of the SAR is described in detail below.

### ***SAR—Page 1***

The number appearing above the student's name and address is a tracking number for the FAFSA Processor and the CPS, and is not used for any institutional purpose.

To the right of the student's name and address is printed the date the record was processed at the CPS. Below the processed date is the student's Expected Family Contribution (EFC). The EFC printed on the front page of the SAR is either the primary or secondary EFC, calculated for a nine-month academic year (see page 12 of this guide for information on the primary and secondary EFC). An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A "C" printed next to the EFC means the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

The body of the letter on page 1 of the SAR is designed to help the applicant understand where he or she is in the financial aid application process as well as what roles are played in the process by the student, the Department of Education, and the school. The page is graphically displayed in three sections as follows.

#### *You (the Student)*

This section describes the basic steps to be completed by the student in the application process. The text for step 1 will vary based on whether the record is an application or a correction. The text for step 2 will vary based on whether an EFC was calculated or the record was rejected. If an EFC was calculated, the text will read, "Now you should check your SAR information. If it is correct, you do not need to return it to us." If the record was rejected, the text will read, "Now you need to check your SAR information and make the necessary corrections."

The text for step 3 will vary depending on whether the record has been selected by the CPS for verification. If so, the text will read, "You will be asked by your school(s) to provide copies of certain financial documents to verify information you reported on your application." If the record is not selected, the text will read, "You will need to verify your information if asked to do so by your school."

#### *U.S. Department of Education*

In this section, the role of the Department is summarized and the results of processing the record are indicated. The text for each of the three steps will be the same on all SARs. However, the text printed under the steps will vary based on processing results. If an

EFC has been calculated, the following text will be printed: “Based on the information you have submitted, we have used the standard formula to calculate your EFC, which is XXXXX. Your school will use this number to determine what types of aid and how much you are eligible for based on your educational costs.” The student’s calculated EFC number will be inserted into this text. If the record has been rejected, the following text will be printed: “You must give us more information before we can calculate your EFC.”

#### *School(s)*

The final section describes the actions taken by the school. The text printed for steps 1 and 3 will be the same on all SARs. The text for step 2 will vary depending on whether the record has been selected by the CPS for verification. If so, the text will read, “Your school(s) will ask you to verify your information.” If the record is not selected, the text will read, “Your school(s) may ask you to verify your information.”

In the bottom left hand corner appears the student’s four-digit Data Release Number (DRN). The DRN can be used by schools to access the student’s electronic application record if they were not originally listed on the student’s application or SAR. In addition, the student can use the DRN when making a telephone request through the Federal Student Aid Information Center by calling 800/4FED AID (800/433-3243)/TTY 800/730-8913 to make two types of changes: 1) to correct data entry errors made by the FAFSA Processor or 2) to request a change of address, telephone number, or a change of institution.

On the SAR, two strings of numbers appear at the bottom of every page. The left-hand numbers are processing codes used by the FAFSA Processor and the CPS for tracking and quality-control purposes. The right-hand numbers are the student identifiers: the original Social Security Number (SSN) and first two letters of the student’s original last name, and the transaction number.

**Note:** If a student changes his or her SSN, or changes his or her name in the CPS, the original SSN and first two letters of the original last name will continue to be used as the student ID. The SAR fields that show the last name and the SSN—fields 1 and 8—will carry the corrected name and SSN. However, when used as an identifier—on correspondence or in requesting duplicates—the student should use the original SSN and name. If the student applies in the following award year using the correct name and SSN, the records for that year will carry the correct identifiers

#### ***SAR—Page 2***

The top half of page 2 contains required information regarding the Paperwork Reduction Act, release of information to schools, and drug convictions affecting eligibility.

The FAA information section on the SAR appears on the bottom half of page 2. Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. This data is similar to the FAA information provided on the ISIR, which is described in detail beginning on page 8 of this guide. Note that the comment codes listed on this part of the SAR are not all comments generated for this student. Only the comment codes that do not have a corresponding flag or other indicator already provided in the FAA information section are printed in this section.

### ***SAR—Page 3***

On page 3, the specific comments that have been set during processing of the record at the CPS will be printed. These identify problem areas, such as missing information or eligibility problems, as well as give the student more detailed information and directions for getting additional help if needed.

### ***SAR—Page 4***

At the top of page 4, the codes for responding to Question 29, Type of Degree/Certificate, are provided.

The bottom half of the page will show financial aid history information for the student. This is a subset of the information received from NSLDS that is included on the ISIR record and described beginning on page 16 of this guide. The information printed on the SAR includes the Aggregate Loan information for FFELP, Direct, and Perkins loans, and detail loan information for up to 4 loans that are in a default or discharge status.

### ***SAR—Pages 5–8***

The remaining four pages of the SAR display the information that was reported by the applicant for each question on the FAFSA/SAR. The SAR is also a vehicle for corrections in the paper system. A shortened version of each numbered item that corresponds to a question on the FAFSA is displayed, and has printed beneath it the student's response to that question. Below or to the right of each question response are boxes and ovals that resemble the answer fields on the FAFSA, and allow the student to indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in boldface type) require special attention. Highlighting means the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question was left blank, or a positive number might be assumed when the answer to an income question was given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word “ASSUMED” will appear in parentheses with the assumed value. Assumed values are used by the CPS in performing the calculation and should always be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can always correct other items, if necessary, whether or not they are highlighted.

When an applicant receives a reject, the resulting SAR will not have a calculated EFC. The SAR requires the student to correct information and return pages 5 through 8 of the SAR to the FAFSA processor for reprocessing.

When an item is questioned by the CPS, it too will be highlighted (printed in bold type) and an arrow will print in the column pointing to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible, and the item is necessary to perform an EFC calculation. The student may also correct other items, if necessary, even if they are not highlighted.

At the top of page 5 are instructions to the student explaining the meaning of the arrows, and the proper way to verify an answer, fill in an oval, or to delete an answer. To verify a previously reported answer, the student must rewrite the same value in the answer fields and return the SAR.

Sometimes students are caught in a reject “loop” because they don’t respond to all of the highlighted and arrowed items to turn off the reject, or because they provide new information that the edit check still considers to be inconsistent or questionable.

Refer to Section III of this guide for more information on using the SAR to make corrections.

### **SAR Information Acknowledgement**

The SAR Information Acknowledgement will continue to be a two-page document. The intent of this document is to allow a student to review processing results when the information was input electronically by the school or by the student using the Web. Because this type of SAR is a paper report to the student, but also an eligibility document like the correctable SAR and the ISIR, it contains information for both student and FAA.

#### ***SAR Information Acknowledgement—Page 1***

Page 1 of the SAR Information Acknowledgment is in a letter format addressed to the applicant. The format of this page has been changed to look more like the SAR letterhead. The top left of the page prints the ED seal, followed by the U.S. Department of Education letterhead, which includes the Federal Student Aid Information Center

telephone number and the FAFSA on the Web internet address. The box at the top right shows the Office of Management and Budget (OMB) form-clearance number and the expiration date.

Beneath the headings appear the student's name and address and the date the CPS processed the transaction. The number appearing above the student's name and address is a tracking number for the FAFSA Processor and the CPS, and is not used for any institutional purpose. Below the processed date is the student's EFC. The student ID is at the bottom of the page.

The SAR Information Acknowledgement comments are fewer and less detailed, and generally refer the student to the FAA for assistance in making corrections or resolving problem issues.

***SAR Information Acknowledgement—Page 2***

The back of page one displays in condensed form every numbered question from the FAFSA and prints the answer the student gave to that question or the value the CPS assumed.

At the bottom of the page, a section headed "For Financial Aid Office Use Only" includes information and codes for FAAs. We have included here all the important match flags showing results of eligibility matches, as well as other information that an FAA would need when using the SAR Information Acknowledgement as an eligibility document. Note that all comment codes generated for the student's ISIR are printed here regardless if an associated match flag or other indicator is also provided.

The comment text printed on the front page is a basic set of comments directed to the student, but the comment codes listed at the bottom of the section include all SAR/ISIR comments that were generated for this record.
